Subject: Thursday's Teleconference

Hi Brian and Ried,

We are supposed to have a WA 1-04 teleconference this Thursday, however, some personal matters have come up and I have to be out of the office from about 9:30 am to mid-afternoon. Would it be possible to re-schedule the teleconference for either this Wednesday or Friday or some other day/time?

BTW, Les and I have been revising the Task 5 report and we think we have more of what you were looking for. Among other enhancements, (b)(5) - Deliberative Process Privilege

Also, we've been working on the Task 4 risk analysis. I have a couple of questions I'd like to discuss: 1) although licensed, the Churchrock and Crownpoint sites have not been developed, and currently the license is being appealed to the U.S. Supreme Court.

(b)(5) - Deliberative Process Privilege

2) the information I've found for the Vasquez site indicates that it has been mined out and production has ceased.

(b)(5) - Deliberative Process Privilege
